A very cozy traditional house that started to build up in 1878 . Is in excellent condition because its been often renovatd and in 2000 was renovatd again. Its build in the hurt of the village. The house has 3 bedrooms upstairs with a shower and a w.c . The view is spectacular with a big veranda at the top floor . In the ground floor there are two sitting areas with a dining area as well. The kitchen is separate out of the house . So the salon and dinning area are in one site of the house and between these spaces and the kitchen is a big yard in the middle. Traditional Cypriot construction build with stones. Also there is another big room that was at old times was a stable , but with a lot of potentials to be a cellar for wines or an extension to make the kitchen much bigger . This property is a good investment for rending out or a small hotel , or Airbnb or a spa relaxing place.
